MEMORANDUM FOR: Chief, New Building Project Office
Office of Logistics

ATTENTION:

FROM:

Chief, Security Equipment Branch
Technical Security Division, OS

SUBJECT: Security Alarm Signal Cable

Per conversations in your last New Building Project Office (NBPO) meeting, Physical Technical and Area Security (PTAS) has re-evaluated its alarm transmission signal cable requirements. A decision has been made to "piggy-back" on other Agency requirements to install signal cable and therefore have that contractor install all Office of Security (OS) signal cable (Alarm, CCTV, Access Control, Communications, etc.) requirements. This cable will be installed and terminated to PTAS specifications. Please advise as to when you will need the specifications for this requirement.
